Will Extend Water System

The City Council has issued a call for bids for an extension of the City's water system. The extension will supply water to the public school and to a great many residences that have, heretofore, been out of reach of the present mains.

The installation or extension of a water system is one of the best civic improvements that any city can make. Its convenience and the fire protection afforded make it a necessity. While it is impossible to supply all residences with city water at present, it is hoped that it can be placed within the reach of all of Wrangell's homes in the near future.

Taconite In Wrangell

The pleasure party on the splendid yacht, "Taconite" consisting of W. E. Boeing, of Seattle, and Mr. and Mrs. Edward Ortman, of Chicago, and brother of Portland, were in Wrangell Sunday afternoon and evening.

Mr. Boeing is interested in the lumber industries of the Pacific coast. The party are on the return trip of a three weeks pleasure cruise in Alaskan waters.

The Taconite is the fastest yacht on the Pacific coast. She is a twin screw gas boat 98 feet long and is equipped with two 100 H.P. engines.

Transportation Delayed

Owing to the laying up of the Telegraph and the inability of the stern-wheeler to come down the river, the following people, bound for Telegraph, B. C., are waiting here for the reopening of Stikine transportation: Frank Callbreath, J. Cartmel and family, Rodney McKay, Thos. C. Wasson, Capt. W. F. Fragg, W. Foster, A. E. Beltry, S. Thompson and A. V. Johnson.

The extreme high water is preventing the stern-wheeler from coming down the river.

Found:—A pair of gold rimmed nose glasses in a boat by the float. Owner please call at Sentinel office for same.

"Burnside" Overhauls Cable System

The U. S. Cable ship Burnside, made its appearance at Wrangell, Tuesday and lay at anchor north-west of town until Wednesday evening. She is in command of Capt. Curtis. Cable Engineer Winters and Cable Electrician Bruck are in charge of the inspection work on the cable systems.

The Burnside will endeavor to reach Seattle before the end of the Golden Potlach week.

Party on Pacific

The following Wrangell people were the guests of Mr. and Mrs. Schott and daughter, last Sunday on a trip to St. Johns Harbor, on the cannery boat Pacific:

Mr. and Mrs. J. G. Grant, Mr. and Mrs. Bronson, Misses Margaret and Katharine Bronson, Mr. and Mrs. McDonald, Miss Pritchett, Dr. Dawes and J. Cartmel and family of Telegraph Creek.

The party visited the famous Zarembo mineral springs and brought back several damijohns of the water.

The number of known dead reached 122 on July 13 but unconfirmed reports hold the fatalities up to 400 and 300 is believed to be a conservative estimate.

The towns of Cochrane, Porcupine and Pottsville have been completely wiped out.

Although the fires are reported to be somewhat under control, the situation is very serious for the survivors are face-to-face with starvation.

Golden Potlach

Seattle's Golden Potlach is in full sway. All railroads are running special trains to the scene of the celebration.

Alert Fire Co. Elects Officers

At the regular monthly meeting of the Alert Fire Company, Thursday evening the following officers were elected for the ensuing year.

President, J. E. Worger,
Vice-President J. H. Wheeler
Secretary Leo McCormack
Treasurer J. G. Grant
Foreman H. F. Dawes

The City Council has recently purchased a new hose cart and several hundred feet of hose, which with the completion of the water extension now under construction will give Wrangell better fire protection than ever before.

You believe in advertising Alaska. That is what the Alaska-Yukon Magazine is doing each issue. You certainly believe in advertising Wrangell. That is what the Alaska-Yukon Magazine will do.

The Magazine's representative, A. F. Holloway, contracts to give Wrangell advertising in return for subscriptions. Advertising Wrangell in an exclusive Alaskan magazine means something. Did you help it along?

For the first time in thirty years, the United States Post Office Department has been found self-supporting. The Department, at the end of the fiscal year, not only was the usual Congressional appropriation of \$3,000,000.00 returned but Congress was informed that the Department had a surplus of about \$1,000,000.00. This condition has been brought about by the present administration in the face of the fact that it inherited a debt of \$17,500,000.00.

The credit for this unusual financial condition is due Postmaster General Hitchcock and the accounting system he has instituted. The expenses have been cut down in all departments and the results shows that the Post Office Department has been run at a loss for years.

Since a surplus has taken the place of a deficit, it is reasonable expected that penny postage will be instituted before the end of Taft's administration.

St. Philips Church

Sunday July 23.—The subject of the sermon will be "How to take a rest." All are cordially invited.

Correspondence

NOTE—Under this head, the Sentinel will be pleased to publish communications of interest, but none will be accepted unless it has the signature of the writer (which will not be published if so requested) and the editor reserves the right to reject objectionable matter.

Notice to Contractors

Sealed bids are hereby invited on the work of installing the following new water pipe line with hydrants, elbows, and connections. The pipe will be 4 inch wooden pipe. This pipe line will commence at the present water main on Front St. at a point opposite Lynch St. near the Brewery Saloon; and will run thence on Lynch St. about 250 ft. to Church St.; thence on Church St. about 150 ft. to Greif St.; thence on Greif St. about 328 ft. to Reid St., at the upper corner of J. E. Worden's property; thence on Reid St. about 316 ft. to McKinnon St.; thence on McKinnon St. about 56 ft. to Cassiar St. thence on Cassiar St. about 200 ft.; thence across the school ground to a point at or near the Wireless Station about 200 ft.; thence through lots 1-2 and 7-Block 9: to Fort St. for a distance of about 225 ft. thence on Fort St. about 200 ft.

to the corner of Fort St. and Stikine Ave., making a total distance of 1925 feet approximately. The work will consist of the following:—1st. The excavation or digging of a ditch or trench in which the pipe is to be laid and covered with earth to a depth of 2 1-2 ft. underground.

2nd. All pipe and material to be carried from the dock, or other place adjoining Front St., where the City Council may have it stored.

3rd. The pipe is to be fitted and put together at the joints in a neat and workmanlike manner that will make it water tight at the joints when the full force of the water is turned on from the Front St. main.

4th. A tee connection is to be fitted onto and from the six inch main on Front St. at point of commencement, together with other tees or elbows at the various turns or bends along the line.

5th. Three hydrants and three gate valves are to be fitted and installed on this pipe line.

6th. After the pipe is properly put together and connected, it is to be laid in the trench and covered with earth to a depth of 2 1-2 feet underground and protected in a manner that will make the line frost proof and efficient in the coldest weather.

7th. As the pipe line is put together it is to be immediately covered up and the ditch must be filled, in order to avoid exposing the pipe to the sun or weather in any way that might damage it.

The above work will be done under the supervision and to the satisfaction of the Water Committee of the City Council, who will stake out the line to be followed. Bids must show the rate offered per running foot on the whole work complete, a running foot to mean one foot for every lineal foot of the pipe laid, connected and finished.

The work must be completed within a specified time; not exceeding 40 days, as may be agreed upon with the successful bidder, if bid is accepted. The Common Council reserves the right to accept or reject any or all bids. Bids must be handed to the Town Clerk or mailed at the Wrangell post-office, not later than 6 o'clock p. m. August 3rd, 1911; and will be opened and passed upon at the regular meeting of the Town Council on the above named date.

Nyal's Salve Heals

Without a Scar

Can you imagine anything more annoying and embarrassing than to think your burns, cuts, or running sore is healing nicely and then have an unsightly scar?

Take no chances—no matter what the cause of the wound, cut, burn, or running sore, remember that Nyal's Salve always heals by first intention—it will not leave a scar.

NYAL'S SALVE

is a powerful antiseptic—it absorbs all scar flesh, nourishes broken down tissue and the result is a firm, healthy, true skin.

Wash with hot water and pure castile soap—apply the salve—change the dressing twice a day and the wound will heal without trace of scar.

Enough for the whole family
Twenty-five cents the box

We expect to be here in business a good many years. The only way we can do it is by treating everybody right. That's our policy.
